The Kennedy Collective delivers **turnkey supply chain and logistics support** for government and commercial customers, covering everything from customer-approved sourcing through final delivery, executed to federal standards and backed by rigorous quality control. We act as a seamless extension of our customers' supply chains, prioritizing accuracy, traceability, and on-time fulfillment on every order.

## CORE CAPABILITIES

### End-to-End 3PL

Customer-approved sourcing, receiving, warehousing, pick/pack, custom kitting, distribution, and reverse logistics, all in one turnkey program.

### Inventory & Order Control

Real-time inventory, lot and serial traceability, cycle counts, and 100% quality verification against the order before every shipment.

### Compliant Sourcing

Competitive solicitation and price-reasonableness analysis, OEM / authorized-distributor traceability, and documented justification for sole-source needs.

### Marking, Packaging & Transport

Packaging, marking, and labeling to customer and military specification (MIL-STD-129 / MIL-STD-130 IUID) as required, with CONUS and OCONUS shipment.

### Secure, Compliant Operations

Controlled-access, monitored facilities; PIEE / WAWF invoicing; and an active path to NIST SP 800-171 readiness for handling Controlled Unclassified Information.

### Surge & Scalability

A trained, cross-functional workforce that scales quickly to meet volume spikes and changing requirements without degrading accuracy or schedule.
